High School Opens With Large Enrollment.

The Gainesboro High School opened Monday with a large attendance. Several parents were present and all enjoyed the interesting talks made by Bro. Boles, Prof. Cox, Bro. Early and Prof. Gaines.

From the present outlook we will have the best school that we have ever had.

Miss Myres is our teacher of home.

Economics and Prof. Cox of agriculture, and the chances are that Jackson county will soon have some good cooks and farmers.

The Parents Teachers are kind and good enough to help us raise money for our Laboratory, and if you men and boys knew what is in store for you, after the girls have studied cooking awhile, you would turn your pockets wrong side out, when they ask you to give a small amount. If you do not give you will be wanting to give a whole lot before school closes, for we are going to give pie suppers and all kinds of entertainments.

Miss Boles has opened the music department with a large class. The orchestra will soon be ready to entertain the school and the public, with melodious strains.

The boys are preparing to have an excellent ball team this year.

The 3rd. and 4th grades are progressing nicely with an enrollment of 39.

The 5th. and 6th grades are also progressing nicely with an enrollment of 38. All who are in these grades will soon see their names shining upon the honor roll.

Each teacher wishes to express their sincere thanks for the earnest co-operation of the parents and hope that they will continue to keep their good work going.

The primary department has an enrollment of 65. Being a little crowded, and no water as yet, we are not doing much real work to date. We are planning for great progress and ask the help of the parents, by giving us your children every day, and that you provide each child with needed books, tablets and pencils which is very necessary before they can do satisfactory work.

Total enrollment to date 202.

What About Hiram's Doll?

Our friend H. G. Crabtree of Big Bottom, was in to see us Tuesday and had much to say about a doll, in fact Hiram was

red-headed about it. We didn't get the particulars, but somebody had better be particular and let this doll subject drop, if Hiram ment what he said, and we presume he did, because his face was mighty red when he was talking about it.

Small Boy Killed By Automobile in Carthage.

Carthage, Tenn.,—(Special to the Sentinel.) The most horrible accident in the history of Carthage, occurred Tuesday afternoon about 4:30 o'clock, when a car, driven by Jewell Hackett, ran over and instantly killed Glenn Canter, the eleven year old son of Mr. and Mrs. Eugene Canter of this place. The accident occurred between Read Bros. drug store and the post office in the presence of a number of people. The little boy was attempting to cross the street when hit by the car. He was dead when picked up. The accident is very much deplored.

School Girl Attacked By Unknown White Man.

The 12-year-old daughter of Dillard Thompson, a farmer, route 7, Cookeville, was assaulted on the way to school Monday morning about 8 o'clock. Her assailant is an unknown white man.

A man sprang from the bushes and tried to drag the girl into the woods. She resisted, he drew a knife, cut her hair off, cut her two or three times on the left arm, chased her down the road until other children came in view, then he jumped the fence and escaped through the woods.

Joe Maddux, Buffalo Valley, with bloudhounds, arrived at 1 o'clock and was immediately taken out in an automobile. A trail was struck but the culprit

has not been apprehended. The community is stirred over the episode. The young girl was not seriously hurt. She talked this afternoon, describing the man who assaulted her.

Republican Denounce Tax Bill.

Here is an extract from the speech of Representative Oscar E. Keller (Rep., Minn.): "With the Nation in the midst of the severest financial depression of its history; with thousand of factories closed; with freight cars idle; with farm produce rotting in the fields because prices will not defray the cost of transportation; with bank failures and bankruptcies increasing; and most serious of all, with 5,735,000 men unemployed as winter approaches, I want to protest against the hasty passage of an unscientific, illyconceived, privilege-written revenue bill, which is going to still further depress the purchasing power of the people by imposing upon small producers and consumers an additional burden of \$600,000,000, which has been lifted from 5,000 millionaires well able to pay it out of their war profits.

"We have adopted a patchwork, makeshift revenue scheme that places the entire burden upon production in such a way that taxes are absorbed in higher prices and then passed along to the consuming public."

ATTENTION! CAR DRIVERS.

All persons violating the City Ordinances of speeding, or using cut outs on their cars within the corporation limits, will be fined as provided by the law for said violation.

Respectfully, H. L. McDearman, Mayor. Harry L. Page, Recorder.

Camels are made for Men who Think for Themselves

Such folks know real quality—and DEMAND it.

They prefer Camels because Camels give them the smoothest, mellowest smoke they can buy—because they love the mild, rich flavor of choicest tobaccos, perfectly blended—and because Camels leave **NO CIGARETTE AFTERTASTE.**

Like every man who does his own thinking, you want fine tobacco in your cigarettes. You'll find it in Camels.

And, mind you, no flashy package just for show. No extra wrappers! No costly frills! These things don't improve the smoke any more than premiums or coupons.

But **QUALITY!** Listen! That's **CAMELS!**
